PROFIL
- C# | .NET | Java | JavaScript | MySQL | NoSQL | Git | MongoDb| Python| Html | CSS | Kotlin |UX/UI|
- Cloud Computing | Unit Testing | Jenkins | Spring batch | Docker | React | Flutter | AWS | ASP.NET|
- Frontend | Backend | Full-Stack | Project leader | Leadership| English, Swedish – Speaks both languages fluent|

EXPERIENCE

Project leader, Uppsala university(Regional Cancercentrum Mellansverige) Aug, 2024 - Jan, 2025

- **Coordinated a class of over 30 international students** and fostered a collaborative environment where subgroups were formed, reducing project **deadlines by 25% and increasing** overall **class productivity by 25%.**
- **Implemented Agile methodology,** improving project flexibility with teachers and increasing customer **satisfaction by 50%.**
- **Created a detailed-oriented environment** where everyone was constantly updated on their tasks.
- **Ensured that everyone had a voice and fostered** an inclusive environment by making sure each team member contributed to and felt involved in the project's success.

Data Handler, Skatteverket   Mar, 2024 - Jun, 2024

- **Transferred millions of data** rows between databases for one of **Sweden's largest government agencies** using **Spring Batch,** increasing productivity **by 50%.**
- **Reduced operational workload by 15%** through optimized resource allocation in the cloud.
- **Implemented an iterative process** focused on refining and improving previous methods, systematically evaluating and integrating alternative approaches to overcome challenges when initial **strategies proved ineffective.**

Study political for SVIT, Rindi   Jan, 2023 - Jan, 2024

- **Contributed valuable insights** to instructors and helped design course content to be more effective, enhancing the overall learning experience.
- **Proactively sought input from industry professionals** to gain real-world insights into key skills and knowledge areas for graduates, helping align academic education with industry needs.
- **Conducted feedback sessions with students** to understand their perspectives on the course and identify areas for improvement.
